PROFILE

Product Designer with a background in finance, manufacturing and business operations. Over the past three years, I've focused on UX/UI, product thinking and digital experiences. I bring an analytical, systems-oriented approach to understanding complex problems and turning them into clear, useful experiences.

EXPERIENCE

Product Designer · Independent Projects Copenhagen · 2025–Present

Self-directed and client work across UX/UI, web and digital product design, from research and information architecture to prototyping, interface design and implementation.

Iversen Stagecrew ApS · Stagehand Denmark · 2022–2025

Supported large-scale live events and productions in fast-paced, multidisciplinary environments.

Tenoar S.A. · Business Operations, Finance & Brand Argentina · 2009–2022

Progressed through finance, logistics, operations and brand development within a 150+ employee manufacturer. Collaborated with designers, agencies and suppliers on websites, packaging, catalogues and brand communication.

SELECTED WORK

FS.dk

Furniture Exchange Platform

Self-directed product design case study focused on clearer pickup coordination and trust between neighbours.

Tenoar / Matexsur

Web Redesign

Redesigned two manufacturing websites to make complex products, capabilities and value easier to understand.
